ALPRED E BEACH,

Editor of the People's Journal, Patent Agent &c. No. 86 Nassau street. New York Nov 23...* PROSPECTUS OF THE NORTH CAROLINA STATESMAN.

THE undersigned propose, on the first day of January next, at Raleigh, North Carolina, to begin the publication of the North Carolina States man, a semi-weekly and weekly paper, devotes to politics, news, and miscellaneous subjects, and respectfully solicit for it a share of the patronage of the democratic party, their friends, and the

Invited by many leading persons of the State rights republican party to propagate and defen-principles which we have always held, and regard as the only basis of prosperity in our form of government, and inspired with a sincere desire to serve that party and advance its interests, we propose to issue a paper at the seat of the State gov-ernment. In the field of editorial enterprise, there is ample room for those who are now holding po-sition, as well as for others, who choose to ente into fair competition. The propagation of the principles of our party is a duty at once important, and to us peculiarly agreeable. The attractions of the editorial profession and its honorable toils, together with a desire to extend its influence, has had much weight in the decision which we have made—a profession at once dignified and has had much weight in the decision which we have made—a profession at once dignified and elevated, where the highest intellectual gifts may find full employment, and the purest patriotism make contribution to the public weal. We are persuaded that a journal, conducted with fairness and discretion—uninfluenced by selfishness and devoted to principle, may secure sufficient patronage, without interfering with the claims or rights of any now prosecuting the same great work.

Although mainly devoted to the discussion of such political questions, as they arise, which affect Although mainly deveted to the discussion of such political questions, as they arise, which affect the welfare of North Carolina, whether relating to the federal or State governments, or such local interests as may be of importance, it is nevertheless intended to make the Statesman a medium of general intelligence. Accordingly, the state of the markets in the principal cities, to which our commerce goes, shall be fully and accurately reported; nor will the attention of the conductors be less addressed to the subject of internal improvements. dressed to the subject of internal improvement as a means indispensable to the development of the mineral and agricultural resources of the State These interests, of primary importance, shall all ways command their fullest attention. To this they propose to add carefully selected and origina Being strictly conservative, they propose to avail themselves of all the lights of experience, in that progress, which promises the a vancement of the interests of North Carolina. The general objects of the proposed paper being thus clearly indicated. it may not be amiss briefly

to state the particular views which are to be su tained by it as a political journal. lated by it as a political journal.

1st. Our purpose being to publish a paper purely democratic, according to the straightest requirements of that party, we shall advocate strict party organization in its fullest and most comprehensive sense; an organization which originates in the popular will, expressed by the people in their prima, assemblies, and which has been so successfully introduced among the decorage of constructions. troduced among the democracy of many of the other States, by which the rank and file of the party are, in fact, those who indicate its decision party are, in fact, those who indicate its decisions, and, being all brought into action, express their will imperatively; thus, by open and fair dealing, commanding respect and obedience; an organization of the people, and not of intriguers; restoring power to those who, by sufferance, have tolerated its temporary usurpation.

2d. The democratic party shall always find in us advected of their right to select their standard bearers, and to command acquirements in decisions.

bearers, and to command acquiescence in decision made by conventions fairly elected in their primar neetings. Standing upon the good sid State rights platform of '95, we shall oppose government corporations created by Congress for the purpose of internal improvement, the regulation of finance, or any other measure inconsistent with the rights

of the States. 3d. Believing that the platform adopted by the late Baltimore convention contains the democratic creed, they expect cordially to sustain the present administration, trusting that the policy adopted by those who compose it will be regulated by the cardinal doctrines of the American democracy.

4th. They will advocate all such measures of internal improvement as promise by judicious prosecution to promote the interests of the people and enefits of a system already enjoyed by

diffuse the benefits of a system already enjoyed by portions of the State.

5th. The disposition of the public lands being a question of the most absorbing interest, we believe it should be at once met and settled. The unjust and unequal legislation of Congress, in relation to those lands, and the large and frequent appropriations made to the new States, indicate a final departure from the old and wise policy of appropriating the proceeds of their sales to the payment of the public debt, and the expenses of the government. It has for some time ceased to be either a subject of hope or expectation that there will ever be a return to a policy which had so much to recommend it. Believing that this system of squandering and prodigality is not only to continue but to grow worse, we shall prefest against it, and assert the right of the old States to their equitable share of the lands which remain. against it, and assert the right of the old States to their equitable share of the lands which remain. The power "to dispose of the public lands being explicitly declared in the Constitution, the exercise of that power is a question of policy, both as to the time and the mode." Believing, as we do that it has become the settled policy of Congress to squander the public lands, we adopt the patriotic language of Mr. Dobbin, and say that "all of North Carolina's sons, both whigs and democrats, should protest, and demand North Carolina's share of the public domain."

6th. Approving of the sentiments of the inauguru-

Mr. Lycett respectfully suggests to his friends that while much has been done to transmit family records, little care has been taken to preserve parental likenesses. He takes this method to inform his friends, and those desirous of perpetuating personal remembrances, that daguerreotype likenesses can be inlaid on the inside covers of family bibles, presentation-books, or keepsakes, specimens of which can be seen at his bindery, or he can be addressed by letter, whichwill be promptly an be addressed by letter, which will be promptly ttended to.

DR. MORSE'S INVIGORATING CORDIAL,
Phenomenon in Medicine.—Health Restored and Life Lengthoned, by Dr. Morse's Invigorating Elixir or Cordial.

A Tarst the properties attributed to Professo Morse's Invigorating Elixir or Cordial were deemed fabulous. The public often deceived could not believe the simple and sublime truths announced by the discoverer. But facts, undeniable facts, attested by witnesses of the highest class and character, are now triumphing over all doubts Increduitty is overthrown by a mass of testimon

which is perfectly irresistible.

The Elixir remedies in all cases the deplorat evils arising from a misuse of the various organs which make up the wonderful machine called man. It restores to full vigor every delicate func man. It restores to full vigor every delicate func-tion connected with that mysterious compound agency of matter and mind, necessary to the re-production of human life. To persons of feeble muscular frame, or deficient in vital power, it is recommended as the only means of communicat-ing that energy which is necessary to the proper enjoyment of all the natural appetites, as well as the higher mental attributes. Its beneficial effects are not confined to either sex or to any age. The feeble girl, the ailing wife, the listless, enervated youth, the over-worn man of business, the victim of nervous depression, the individual suffering of nervous depression, the individual suffering from general debility, or from the weakness of a single organ, will all find immediate and permasingle organ, will all find immediate and permanent relief from the use of this incomparable renovator. To those who have a predisposition to paralysis, it will prove a complete and unfailing safeguard against that terrible malady. There are many, perhaps, who have so trifled with their constitutions, that they think themselves beyond the reach of medicine. Let not even these despair. The Elixir deals with disease as it exists without reference to causes, and will not only remove the disorder itself, but

move the disorder itself, but REBUILD THE BROKEN CONSTITUTION The derangements of the system, leading to nervous diseases, and the forms of nervous disnervous diseases, and the forms of nervous disease itself, are so numerous that it would require a c-lumn to enumerate the maladies for which this preparation is a specific A few, however may be enumerated. viz: neuralgia tic-doloureux, headache. incipient paralysis, bysteria, palpitation of the heart, spinal affections, muscular debility tremore, flatulence, a pricking sensation in the flesh, numbness, torpidity of the liver, mental depression, weakness of the will, indisposition to move, faintness after exercise, broken sleep, and terrifying dreams, inability to remain in one place terrifying dreams, inability to remain in one place or position, weaking of the procreative organs sexual incompetency, melancholy, monomana fluor albus, sinking at the stomach, female irre gularities, a chronic tendency to miscarriage emaciation, and all complaints growing out of a free indulgence of the passions, and all barrenness that does not proceed from organic causes beyond the reach of medicine.

Whenever the organs to be acted upon are free from malformation or strictural diseases, it is averred that

MORSE'S INVIGORATING ELIXIR MORSE'S INVIGORATING ELIXIR
Will replace weakness with strength, incapacity
with efficiency, irregularity with uniform and natural activity, and this not only without hazard of ural activity, and this not only without hazard of reaction, but with a happy effect on the general organization. Bear in mind that all maiadies, wherever they begin, finish with the nervous system, and that the paralyzation of the nerves of motion and sensation is physical death. Bear in mind, also, that, for every kind of nervous disease the Elixir Cordial is the only reliable preparation

CURE OF NERVOUS DISEASES. No language can convey an adequate idea of the immediate and almost miraculous change which it occasions in the diseased, debilitated, and shattered nervous system, whether broken down by excess, weak by nature, or impaired by sickness, the unstrung and relaxed organization is at once braced, reviviñed, and built up. The mental and physical symptoms of nervous disease vanish together under its influence. Nor is the effect temporary; on the contrary, the relief is perma-nent, for the cordial properties of the medicine reach the constitution itself, and restore it to its normal condition. Well may the preparation be called the

MEDICINAL WONDER Of the nineteenth century. It is, as the first scientific man in the world would have admitted, that miracle of medicine heretofore supposed to have no existence.
A STIMULANT THAT ENTAILS NO RE

ACTION. Its force is never expanded, as is the case with opium, alcoholic preparations, and all other excitants. The effect of these is brief, and it may well be said of him who takes them: "the last state of that man is worse than the first." But the Elixir is an man is worse than the first." But the Elixir is an exhilarant without a single drawback—safe in its operation, perpetual in its happy influence upon the nerves, the mind, and the entire organization; it will also remove depressions, excitement, a tendency to blush, sleeplessness, dislike of society, incapacity for study or business.

INVIGORATING CORDIAL,
DURELY Vegetable in its composition. This
invaluable Cordial is extracted from Herbs and
Roots, which have been found after years of ex
perience, by the most skillful physicians, to be
mossessed of qualities the most beneficial in the
diseases for which it is recommended; and hence,
whilst it is presented to the public as an efficacious remedy, it is also known to be of that character on which reliance may be placed as to its
safety. In cases of Impotency, Hemorrhages,
Disordered Sterility, Menstruation, or Suppression
of the Menses, Fluor Albus or Whites, or for
Deblity arising from any cause, such as

Debility arising from any cause, such as weakness from sickness, where the patient has been confined to bed for some time, for females after confinement, abortion or miscarriage, this cordial cannot be excelled in its salutary effects or in loss of muscular energy, irritability, physical prostration, seminal weakness, palpitation of the reart, indigestion. sluggishness, decay of the pro-creative functions, nervousness, &c., where a rosic medicine is required, it will be found equal if not superior to any compound ever used. To Females.—Henry's Invigorating Cordial is one of the most invaluable medicines in the complaints to which females are subject.

Less suffering, disease, and unhappiness among ladies would exist, were they generally to adopt the use of this cordial. Ladies who are debilitated by those obstructions which females are liable to are restored by the use of a bottle or two to bloom and to vigor.

Young Men.—That solitary practice, so fatal to the existence of man, and it is the young who are most apt to become its victims, from an ignorance of the danger to which they subject themselves,

sists nature to brace the whole system, check ex-cesses, and creates renewed health and happiness

Nervous Debility, weakness of the system Nervous Debility, weakness of the system and premature decay. Many of you may now be suffering, misled as to the cause or source of disease. To those, then, who by excess have brought on themselves premature impotency, involuntary seminal emissions, weakness and shrivelling of the genital organs, nervous affection, or any other consequences of unrestricted indulgence of the sensual passions, occasioning the necessity of renouncing the felicities of

cine that is purely vegetable, will aid nature to re
store those important functions to a healthy state,
and will prove of service to you. It possesses rare
virtues, is a general remover of disease, and
strengthener of the system.

As a Tonic Medicine, it is unsurpassed. We
do not place this cordial on a footing with quack

list of recommendations, certificates, &c., beginning with "Hear what the Preacher says," and
such like; it is not necessary, for "Henry's Invigorating Cordial" only needs a trial to prove that
it will accomplish all we say.
